

Salem Nabil Salem

DevOps & Full-Stack Web Developer

Sharjah, UAE isalemnabeelsalem@gmail.com 055 887 8215
portfolio.isalem.dev isalem-nabeel SalemNabeelSalem

Summary

DevOps & Full-Stack Web Developer with 4+ years of experience engineering resilient microservices, high-throughput backend systems, and automated CI/CD pipelines. Proficient across the full software delivery lifecycle using **Spring Boot**, **Node.js**, **React.js**, **Vue.js**, and **Docker**. Skilled in multi-tier database architectures (**MySQL**, **PostgreSQL**, **SQLite**, **MongoDB**, **Cassandra**, **Redis**), cloud deployment (**AWS**, **DigitalOcean**), and cross-platform integrations to build scalable, high-performance web applications.

Experience

Dec 2023 – present **IT & Software Engineer**, BLACK LINE GEN TR. CO. LLC – Sharjah, UAE

- **Digital Transformation & B2B Ecosystem:** Led the engineering of the company's centralized web platform and administration portal (blacklineuae.com), streamlining commercial operations and product catalog management.
- **Software Development & Integration:** Developed and integrated software solutions to streamline business processes and improve operational efficiency.
- **Cloud & DevOps Practices:** Implemented cloud-based solutions and automated deployment pipelines to enhance system scalability and reliability.

Dec 2022 – Nov 2023 **Full-Stack Web Developer**, Ejalo Cosmetics Trading – Ajman, UAE

- **E-Commerce Platform Engineering:** Developed custom integrations and core features for **BigCommerce** and **Shopify** storefronts using **Vue.js**, **React.js**, and REST APIs to enhance front-end user experience and store functionality.
- **Internal Tooling & System Integration:** Built custom internal applications in **Node.js (Express)** and **Python** to automate real-time data sync and state manipulation between **Shopify** and **BigCommerce**.
- **Workflow Automation & Cloud Infrastructure:** Designed automated business workflows using **Zapier** and deployed backend services on **DigitalOcean**, streamlining operational processes and cross-platform communication.
- **Full-Stack UI/API Development:** Created responsive, dynamic web application interfaces paired with modular backend API endpoints, backed by **Git** version control workflows.

Dec 2019 – Nov 2022 **Software Engineer / DevOps & Full-Stack Developer**, ELA Technologies LLC – Aden, Yemen

- **Microservices Architecture:** Designed, built, and deployed scalable microservices using **Spring Boot**, **Node.js (Express)**, and **Docker**, reducing application latency and improving system reliability.
- **Database & Caching:** Engineered resilient data storage and caching strategies leveraging **MySQL**, **Cassandra**, and **Redis** to optimize query performance and high-throughput data processing.
- **Cloud & DevOps Automation:** Managed **AWS** cloud infrastructure and built automated **Jenkins** CI/CD pipelines to streamline deployment workflows and cut manual deployment overhead.
- **API & UI Delivery:** Collaborated with cross-functional teams to build and integrate robust RESTful APIs with dynamic front-end UIs, backed by automated testing suites.

Projects

BlackLine General Trading Co. B2B Platform

- Architected a high-performance SSR storefront using Astro.js, React, and Tailwind CSS.
- Designed a custom admin dashboard with JWT authentication, SQLite, and Drizzle ORM.
- Secured API endpoints with Cloudflare Turnstile anti-bot verification and custom IP rate limiting.

Technical Skills

Programming Languages: Java, Python, PHP, JavaScript (ES6+), SQL

Backend Development: Spring Boot, Node.js, Express.js, RESTful APIs, Microservices Architecture

Frontend Development: HTML5, CSS3, Bootstrap, Tailwind, Vuetify, React.js, Vue.js, Responsive Web Design

Databases & Caching: MySQL, PostgreSQL, SQLite, MongoDB, Cassandra, Redis, Database Design

DevOps & Cloud: Linux, Docker, AWS (EC2, S3, Route53), DigitalOcean, Jenkins (CI/CD Pipelines), Git / GitHub

E-Commerce & Tools: BigCommerce APIs, Shopify Integrations, Zapier Automation, Postman, Swagger / OpenAPI, Jira

Security & Testing: Bug Bounty Research (Intigriti Profile), Web Application Penetration Testing

Education

2016 – 2020 **Faculty of Engineering, University of Aden**, B.Sc. in Information Technology – Aden, Yemen

Languages

Arabic: Native

English: Professional Working Proficiency
